Funding Adventist Worldwide Movement – *Bulletin series, Part 4 – Practically Speaking January 31, 2024, | Columbia, Md. | by Randy Robinson.* For the purposes of the calculation, a large conference was one that collected an annual tithe of more than \$35 million. A medium-sized conference (like Ohio) was one that collected between \$15 million and \$35 million, and a small conference was one that collected less than \$15 million. In the president’s report, Bob Cundiff revealed that the total tithe from 2018 to 2022 was \$68,286,279, an increase of 34.4 percent compared to the previous quinquennium. A single tithe dollar, for example, assists our local church, conference, union, and division, and helps other world divisions. It is designed to follow two long-held philosophies: first, the more financially able help the less financially able; and second, we are stronger doing things together than each doing their own thing. These two philosophies are integral to the entire financial structure of the world church. Now that we understand how much tithe remains at the conference and generally what it is used for, how does the wider organization use the remaining 17 percent? *Continued next Sabbath.*
