Funding Adventist Worldwide Movement – *Bulletin series, Part 6 – Departmental Services January 31, 2024, | Columbia, Md. | by Randy Robinson.* **Capital Borrowing** – If a church has or had a building project, there is a good chance they can secure a loan from the revolving fund. This is a fund, run in each union, provides low-cost loans to build, purchase, refurbish, or church and school structures. It is like an internal bank. There are usually no fees, and an extremely competitive interest rate. **Accounting/Auditing** - The NAD provides accounting and payroll software that is used by more than 90 percent of church entities beyond the local church and develops software that can be used by local churches and schools. These programs are provided mostly free of charge to the users. In addition, the General Conference employs trained auditors. **Data Services** - Hackers and data extortioners are everywhere! Everyone these days is at risk from these bad actors, and the church is no exception. The NAD has built and maintains a data center where church entities can store, maintain, protect, and interact with their data within the safety of the NAD private cloud. **Education Curriculum Development** - The Seventh-day Adventist Church in North America runs one of the largest school systems in the world. It embraces and teaches the distinct biblical beliefs of the church. Many call it the largest evangelistic tool in the NAD, where about 9,300 teachers educate and minister to more than 76,000 students every day. This would not be possible if the General Conference, NAD, union conferences, and local conferences did not collaborate to develop a distinctly Adventist curriculum. *The Article concludes next Sabbath.*
